This is the makeup look that I had last night at one event and I received a countless compliments on it. I am not satisfied with photos, because I didn't managed to take a single photo that can totally describe that vivid glitter effect, but I hope you will like it any way.

Ovo je make up za koji sam dobila nebrojno divnih komentara na jednom sino?njem doga?anju. Jako mi je žao što fotografije nisu uspjele do?arati stvarni efekt make up-a, naime, fotoaparat je sino? jednostavno odbio poslušnost u slikanju šljokica. Probajte zamisliti puno dublju konturu oka sa sofisticiranim tamnim šljoki?astim pigmentom koji divno isti?e o?i, besprijekoran ten, roskaste obraze i prirodne, blago sjajne usne,
