Ideja je bila napraviti zavodljivi tutorial s minimalno proizvoda zbog ?ega sam izabrala paletu s 4 sjenila od kojih sam najtamnije koristila kao tuš za oči, a sa ostalim sjenilima naglasila prirodnu konturu oka. Ostatak lica sam konturirala, nanijela rumenilo i ruž na usne. Bonus su umjetne trepavice za koje se odlučite ukoliko ih volite. Pjegice su nešto što sam ljeti potpuno zavoljela pa ih ne volim prikrivati i težim prozračnim puderima, no ukoliko vi ne volite svoje nedostatke uvijek možete više vremena posvetiti izjednačavanju tena.
